6 inch connection	\$4,200	\$5,355.00
8 inch connection	\$6,300	\$8,557.50

These figures are base figures. Actual capacity fees determined by SC DHEC Unit Contributory Loadings Schedule. All inside the City owners of properties where sewer facilities are not currently accessible will be permitted to connect to the City Sewer System for the old capacity fee of \$35.00, if and when sewer lines become accessible to their property. However, they must have owned the property prior to September 13, 1995, and have not changed the use of the property, and the privilege is not transferable or assignable to a new owner. Addendum dated 09/14/95. (As stated, under policy adopted September 12, 1995, no new sewer connections outside the City have been permitted since that time except to honor pre-existing sewer service commitments. The fact that outside connection fees are set forth in this fee schedule does not alter that policy in any way.)

Commercial and Industrial Sewer Capacity Fees

Determined by SCDHEC Unit Contributory Loadings Schedule at \$7.50/GPD for in town installation, \$9.50/GPD for out of town installations.

Sewer Surcharge Fees

(In accordance with City of Camden Ordinance Section 51 and 53)

Biochemical Oxygen Demand (BOD)	\$0.27/lbs/day
Total Suspended Solids (TSS)	\$0.21/lbs/day
Oil and Grease	\$0.09/lbs/day

Industrial Pre-treatment Fees

(In accordance with City of Camden Ordinance Section 53)

Annual Program Administration and Inspections Fees - \$6,720*

*Varies based on wastewater characteristics. An additional sewer impact fee shall be required if the sewer collection system has to be upgraded to serve an industrial project.

Sewer Rates

Base Charge:	<u>In Town</u> \$8.97	<u>Out of Town</u> \$17.26

EXHIBIT C

FUEL ADJUSTMENT SURCHARGE

AVAILABILITY

The Fuel Adjustment Surcharge (the “FAS”) is available throughout the entire electric service territory and all customers served by the City.

APPLICABILITY

The Fuel Surcharge is applicable to all and becomes a part of all the City’s retail electric service rate schedules and is applicable to all kWh sales thereunder.

BILLING RATE

Each monthly bill computed under the City’s appropriate retail rate schedule will be increased or decreased by an amount equal to the result of multiplying the kWh used by the FAS factor.

The FAS will be calculated as follows:

$$FAS = (Pm/Sm) - \$0.01500$$

FAS = Adjustment factor in dollars per kWh rounded to the nearest one thousandth of a cent applicable to bills rendered during the current fiscal year billing cycle defined as July through June (Fiscal Year).

Pm = Total Applicable Purchased Power costs during the current Fiscal Year.

Sm = Total estimated retail energy sales during the current Fiscal Year.

TOTAL APPLICABLE PURCHASED POWER

“Total Applicable Purchased Power “shall be:

- (i) the City’s total cost of purchased power charges from Carolina Power Partners (“CPP”), plus
- (ii) transmission charges from Duke Energy Progress Transmission (“DEPT”), plus
- (iii) any applicable adjustments applied to purchased power for the Billing Period, plus
- (iv) amounts described below in Special Provisions, plus
- (v) an amount to correct for any over-recovery or under-recovery of the actual Total Applicable Purchased Power costs in the preceding Fiscal Year. This over-recovery or under-recovery shall be determined as the difference between the actual Applicable Purchased Power cost during the preceding Fiscal Year and the estimated Applicable Purchased Power costs established for the preceding Fiscal Year.

SPECIAL PROVISIONS

Actual CPP purchased power costs and DEPT transmission costs that are over or under budgeted may be recovered, or returned, through the FAS at the discretion of the City. Any true-ups or true-downs charged, or credited, to the FAS may be offset in whole or in part by amounts provided from, or to, the Electric Rate Stabilization Fund, as established by the City.
